About Me

I am a Lecturer (Assistant Professor) at Cardiff University, where I lead the Cardiff NLP Group. My research lies at the intersection of Natural Language Processing (NLP) and Computational Social Science (CSS), with a focus on multilingual and low-resource languages, automated fact-checking, bias, and the development and evaluation of language technologies.

I am particularly interested in how multilingual, diverse, and structured data resources, together with machine learning models, can support the study of language and society while enabling robust NLP applications that are developed and deployed responsibly in real-world settings.

Work Experience

June 2023-now Lecturer (Assistant Professor) at the School of Computer Science and Informatics, Cardiff University.

April 2021-June 2023 Postdoctoral Researcher at the University of Cambridge (**Advisor** Prof. Andreas Vlachos).
